Sprint/Milestone:	
Description While a nice-looking interface is important, the major focus of this interface should be on accessibility. Accessing the history through diverse methods, depending on the screen reader being used, easily accessing the command prompt and command history, configuring the entire application, all are important facets of CocoMUD.	
Subtasks:	
Feature # 10: Support the NVDA screen reader	Open
Feature # 11: NVDA's flat review mode doesn't read the MainWindow well	Closed
