

CocoMUD client - Feature #7

Provide a portable and accessible MUD client

09/18/2016 11:47 PM - Vincent Le Goff

Sprint/Milestone:	
Description Whether using NVDA or Jaws on Microsoft Windows , Orca on Linux or VoiceOver on Mac OS, supporting accessibility would be more than useful. Accessible MUD clients already exist on Windows, as it is, but they tend to be more scarce, if not absent, from Linux or Mac. Although CocoMUD client will attempt to be accessible on Windows at first, it would be very interesting to have the same level of accessibility on other platforms, perhaps even iOS and Android .
